

### Insulator for Porcelain Fuse Cutout

The cutout insulator is part of the porcelain fuse cutout. It is an elongated, skirted insulator typically formed of porcelain. It composes the electrical cutout together with the end fittings and elongated fuse.

Cat. No.	Rated Voltage (kV)	Fig. No.	Leakage Distance (mm)	Cantilever Strength (kN)	Dimensions (mm)			Shed No.	Weight (kg)
					H	D	d		
15101	15	1	220	18	287	87	32	8	2.8
15102	15	1	240	18	287	90	32	8	2.8
15103	15	1	255	20	287	105	32	12	3.2
25201	25	2	300	10/12.5	376	90	32	12	3.5
25202	25	2	340	10	376	96	35	12	3.7
25203	25	2	280	10	376	87	32	12	3.4
25204	25	2	360	10	376	102	35	12	3.9
25205	24/27	3	470	10	376	131	35	12	5.8
25206	24/27	4	460	10	376	129	32	10	6.0
25207	24/27	5	435	6.8/10	467	95	32	17	5.2
